Branch Nursery Grounds,

South Vancouver and Hatzic.

M. J. HENRY'S CATALOGUE
OF
Bulbs, Roses, Trees, Plants, Seeds,
ETC., ETC.,
FOR FALL PLANTING.

THE experiment of publishing a Fall Catalogue last season met with such success that I again place one in the hands of my customers, trusting to receive a share of their orders, which will be filled from the best stock of Bulbs to be obtained from the various countries where they are produced in the most perfect condition.

This list, in connection with my General Spring Catalogue, of 80 pages, will give intending purchasers an idea of the stock I carry and the prices which it is retailed at. While a few items may appear to be priced higher than in some Eastern or foreign Catalogues, I trust you will bear in mind that my printing is all done in British Columbia, and that the stock on my own grounds is produced and handled *by white labor only*.

Thanking you for past favors and soliciting a share of your future orders, I await your pleasure and remain

Respectfully yours,

M. J. HENRY.

SUGGESTIONS TO INTENDING PURCHASERS.

TERMS.

REMITTANCE.

All orders must be accompanied by cash. I keep no book accounts with my customers, and cannot fill orders when there is no remittance.

HOW TO SEND MONEY.

All money must be sent by Post Office or Express Money Order, or Postal Note, on Mount Pleasant or Vancouver; Bank Draft on Vancouver or by Registered Letter. If sent by either of these ways it is at my risk, but if sent by ordinary letter it will be at the sender's risk.

SILVER.

May be sent for small amounts, but should always be wrapped in strong paper or placed between cardboard to prevent wearing through the envelope. Silver or Bills should always be Registered.

IMPORTANT.

 I wish to urge the importance of sending all money in a safe manner as described above. I will bear the extra expense by allowing my patrons to select extra goods to the amount of the Money Order or Registration Fees on orders amounting to \$1.00 and over.

POSTAGE STAMPS.

May be sent in payment of small amounts, when it is not convenient to procure P. O. or Express Money Order. Please be very careful to have stamps perfectly dry before enclosing, as they sometimes stick together and are ruined.

FREE BY MAIL.

Remember, all Bulbs offered in this catalogue forwarded free by mail, at the prices named, except in 100 rates. When comparing this catalogue with others you will notice that some dealers charge extra for postage when bulbs are forwarded by mail. *I pay postage* and guarantee satisfaction in every case.

PREMIUMS.

At the prices quoted in this catalogue the profit is so small and the cost of postage so great that I cannot afford to allow any premiums or discount on bulbs when ordered by mail.

ORDERS BY EXPRESS.

To customers ordering in large quantities, to be sent by Express, I will allow a discount of 15 per cent. off catalogue prices, except where quoted by the 100, in which case prices are net—no discount.

BULBOUS PLANTS.

A few Hints on their Culture.

Treatment of Bulbs in Pots.—For early flowers most varieties should be potted in September, and for a succession at intervals up to December. A very good soil for the growth of bulbs is composed of one-half decomposed turfy loam, and the remainder equal parts of well rotted manure and leaf mould well mixed together. The size of pots used depends on the size of the bulbs and the effect desired. For a single Hyacinth a five-inch pot should be used; for Tulips, a four-inch pot would be large enough. A very pretty effect is produced by putting three or more Hyacinths or six or more Tulips of different colors in a seven or eight-inch pot. Narcissus require about the same size pot as Hyacinth.

In potting fill the pots to the rim with soil, press the bulbs into it until they are covered, then press down the soil around the sides of the pot, give a good watering which will further settle the soil. The pots should now be placed in a cool, dark situation, so as to encourage a strong growth of roots before the bulbs start at the top. A very good place is a cool cellar, where the pots should be covered with five or six inches of sand; or a trench may be dug in the open ground, and the pots placed in it and covered with six or eight inches of soil, then cover over that with sufficient leaves or coarse manure to keep out frost, so they may be got at when wanted. In six or eight weeks they will have made sufficient root to admit of their being brought to the light; as they begin to grow, water them freely, so that the soil may be moistened to the bottom of the pots. By bringing in a few at intervals of eight or ten days, a succession of flowers may be had for months.

Hyacinths in Glasses.—Grown in this way Hyacinths are elegant ornaments for the sitting-room or parlour, and can be grown with very little trouble. Fill the glasses with water so that the base of the bulbs will just touch it, set them away in a cool, dark cellar or closet until the roots have reached the bottom of the glasses, when they may be brought to the light. When brought into the house they should be kept near the light and at a temperature of between 50 and 60 degrees.

Out-Door Planting.—This may be done any time from the last of September to the first of January, where the ground remains unfrozen, but, if possible, should be done in October or early in November.

Depth and Distances for Planting.—Hyacinths, Lilies, etc., should be planted four inches deep; Tulips, Narcissus, Jonquils, etc., three inches; Crocus and Snowdrops, two inches, always measuring from the top of the bulbs. The rows should be from six to twelve inches apart, and the bulbs four to eight inches, according to the size of the bulbs.

Soil.—Any good thoroughly drained soil will grow bulbs well. If it should be heavy clay it would be best to add sand and well rotted manure to make it loose. The surface of beds should be slightly raised at the centre so that water will run off quickly, as bulbs are liable to rot if water remains on them any length of time.

Winter Protection.—Before winter sets in, cover the beds with four to six inches of leaves, if they can be had; if not, coarse manure will do nearly as well; if leaves are used, throw over a little brush or earth to prevent blowing off. In the South, where the ground does not freeze more than a thin crust, they will require no protection.

Care of Hyacinths and Tulips After Flowering.—About a month after they are through flowering, or when the tops appear yellow or decayed, they should be taken up and the tops cut off within an inch of the bulbs, but leave the roots on; spread them in a dry, airy room for ten or twelve days to dry; after which wrap them in paper, or pack them in perfectly dry sand, and store them in a dry, cool place until wanted for planting. If the beds in which they have bloomed are wanted for bedding plants, they may be taken up as soon as they are through flowering and heeled in the ground in some out-of-the-way place, with the tops on, until they ripen, then treat them the same as if they had ripened in the bed.

Bulbs as Winter Bloomers.—There is no class of plants that gives more satisfaction for the window garden, or that can be grown with so little care or expense.

BULBS, PLANTS, ETC.

Anemones.

Highly ornamental Spring and Summer flowering plants, having both single and double flowers, the colors of which are wonderfully beautiful, running through all shades of blue, scarlet, rose, white, lavender, etc. When grown in masses they are brilliant in the extreme. If the flowers are wanted in succession from spring to fall, the roots should be planted in pots or cold frames in the fall for spring blooming, and another lot in the same way toward spring for summer, and another lot in the open ground in May for autumn flowering. The latter planting should be in a partially shaded situation, where the ground is moist. Anemones are also splendid for pot culture, for flowering in the house or conservatory during winter.

Choice Double Anemones, Mixed Colors. 3 for 10c. ; 30c. per doz.

Crocus.

The Crocus is one of the earliest flowers of spring, and should have a prominent place in every garden. They begin to show their flowers before the frost has fairly left the ground in the spring, and in sheltered situations in this latitude will sometimes bloom in March, although April is the season of their greatest beauty. For weeks during the changeable and often disagreeable weather of early spring, the garden depends almost alone on the Crocus for beauty and brightness.

The Crocus should be planted in the autumn, at any time before the ground freezes. Plant two or three inches apart and about two inches deep. They may also be planted in the sod on the lawn, where they will remain for years and give a lawn a beautiful appearance when in bloom. They are also excellent for winter blooming, requiring same treatment as Hyacinths.

15c. per dozen. 90c. per 100. \$4.00 per 500.

Albion—Purple.

Argus—Striped violet and white.

La Grandesse—Pure white.

Cloth of Gold—Golden yellow and brown ; beautifully striped. 10c. per dozen ; 60c. per 100 ; \$1.00 per 1,000.

Mammoth Yellow—Immense golden yellow flowers ; very large bulbs. 20c. per dozen ; \$1.25 per 100 ; \$10.00 per 1,000.

Mixed Varieties of purple and blue. 10c. per dozen ; 75c. per 100 ; \$3.00 per 500.

Queen Victoria—Pure white.

Sir John Franklin—Dark purple.

Sir Walter Scott—Striped blue and white

Crown Imperials.

An old and well known spring blooming plant, with clusters of pendant bell-shaped flowers, surmounted with a tuft of green leaves ; very effective in mixed borders and centres of beds. They succeed well in any soil. Plant the bulbs about four inches deep and one foot apart. 15c. each ; \$1.50 per dozen.

Aurora—Red ; fine large, bright flowers. **Crown of Gold**—Red. Novelty.

Christmas Roses.

Hardy herbaceous plants, blooming in December and January if planted early in the fall and placed under glass in a gentle heat. The flowers are pure white,

two to three inches across, and quite freely produced. Most charming plants and sure to delight. If the flowers are cut in the bud and placed in water they open out beautifully.

Heleborus Niger—35c. each; \$4.00 per doz. Ready in November.

Dicentra, or Delytra.

A superb plant, without which no garden is complete. The flowers are borne on long, gracefully curved stalks, hanging like rows of pendant gems, delicate rose-color and white, with purple lips, and presenting when in full bloom a wondrously beautiful appearance. It will endure the coldest winter without protection. It is also excellent for cut flowers in winter, forcing very readily.

Dicentra spectabilis. "Bleeding Heart." Mailing plants, 20c. Clumps, 25c. to 50c.

Fresia.

This important acquisition has already become a favorite for parlor culture; and the ease with which it can be forced into blooming makes it very highly prized by both amateur and professional florists. This wonderful bulb was introduced from Africa, and as the seasons there are directly opposite to ours—they having summer during our winter—accounts for the certainty and ease of its flowering in winter under all circumstances. The flowers are about two inches in length and the same in width, in shape like a miniature Gladiolus, and are always borne in clusters of from six to ten each, on depressed horizontal scapes. Its sprays of chaste white flowers among the green foliage give it the appearance of an immense Lily of the Valley, with fragrance far more delicate and pleasing. The flowers are particularly useful for cutting, as they keep in good condition for a week or more.

The bulbs should be potted in good rich soil of sandy texture, watered sparingly at first, placed in a sunny window, and watered more as growth progresses. Should have a place in every collection of bulbs.

I have been very fortunate in securing a lot of the largest and finest bulbs of this popular flower ever grown. They will average fully double the size of bulbs as usually sold, and cannot fail to give the most perfect satisfaction. You should not fail to include them in your order.

First-class bulbs, the size usually sold, 3 for 5c.; 15c. per doz.; by mail, postpaid. Mammoth selected bulbs, 5c. each; 30c. per dozen; postpaid.

Leichtlini Major—Large yellow. 3 for 10c.; 30c. per dozen.

Refracta Alba—Pure white. Very beautiful. 3 for 10c.; 20c. per doz.; \$1.25 per 100.

Mammoth—Very large bulbs. 3 for 10c.; 30c. per doz.; \$1.50 per 100.

Hyacinths, Select Named.

First size, Single, 15c. each; \$1.50 per doz., prepaid by mail. By express, at purchaser's expense, \$1.25 per doz.

SINGLE.

Baron Von Tuyll—Early. Rich blue.

King of Blues—Indigo. One of the best.

Blondin—Striped purple, large truss.

Charles Dickens—Lilac.

Giant Vainqueur—Brilliant rose.

Lord Macaulay—Dark rose, extra fine.

Amy—Brilliant carmine.

General Pellissier—Very dark red. Early.

Albertine—Pure white; extra fine bulbs.

Baroness Von Tuyll—Clear white. Early.

Reina Blanche—Pure white, splendid truss.

Grande Jaune—Brilliant yellow.

DOUBLE.

First size, 15c. each; \$1.50 per dozen.

Alida Catharina —Pinkish red. Early.	La Virginite —Blush white.
Bouquet Tendre —Dark red. Early.	Charles Dickens —Blue; very fine.
Czar Nicholas —Blush rose.	Blocksberg —Light blue.
Regina Victoria —Dark red.	Boquet d'Orange —Reddish yellow.
Duchess of Bedford —Pure white.	Jaune Supreme —Canary yellow.

Named Hyacinths.

Growers who wish good cheap bulbs for forcing should order these, as they give satisfaction planted in pans, pots or boxes.

Second size, \$1.25 per doz. by mail. \$1.00 per doz. by express.

SINGLE.

Baron Von Tuyll —Rose and red.	Heroine —Yellow.
Madame Hodson —Rose and red.	La Pule d'Or —Yellow.
Alba Supurbissima —White.	Haydn —Violet.
Maid of Orleans —Blush white.	

DOUBLE.

Bouquet Royal —Dark red and rose.	La Virginite —White and blush white.
Bouquet Tendre —Dark red and rose.	Charles Dickens —Dark blue.
Anna Maria —White and blush white.	Bouquet Royal —Yellow.

Single Bedding Hyacinths

\$1.25 per doz., postpaid. \$1.00 per doz. by express. 15c. each two for 25c.

Queen Victoria Alexandrina —Vivid scarlet.	Sultana Favorite —Rose.
---	--------------------------------

Dutch Roman Hyacinths

Single, pure white. 5c. each, 35c. per dozen, postpaid.

French Roman Hyacinths

For very early forcing. 5c. each, 35c. per dozen, postpaid.

Narcissus Lotus Albus —Paper white. 5c. each, three for 10c.; 40c. per doz. \$2.00 per 100 by express.	
Narcissus Lotus Albus Grandiflorus —5c. each, 40c. per doz. \$2.00 per 100.	

Miniature Hyacinths

These are truly lovely. The spikes of bloom are long and gracefully curved, and of the most beautiful colors and delicious fragrance. Try them for winter blooming and you will be delighted.

Mixture of Choicest Sorts, 5c. each. 40c. per dozen.

Iris.

Each variety that I list has been in blossom on my grounds during the past season. Perfectly hardy.

AUREA (The Golden Fleur de Lis)—This is one of the finest of this beautiful class of plants, and the best of Hardy Perennials. It grows to a height of from 4 to 5 feet, bearing 12 to 15 pure golden yellow flowers of large size, a color which is rare in Iris. A grand plant that should be in every garden. 25c.

ENGLISH (Anglica)—Large, handsome flowers, with rich purple, blue and lilac colors predominating. Grows 18 to 20 inches high. 10c.

GERMAN (Iris Germanica)—This variety is the true "Fleur de Lis," the national emblem of France. They include all the broad-leaved Iris and are perfectly hardy, thrive anywhere, grow and bloom luxuriantly, particularly if plentifully supplied with water. 10c.

KEMPFER (Japan Iris)—The magnificence of these new Iris surpasses description. The flowers are of enormous size, averaging from 8 to 10 inches across; the prevailing colors being white, crimson, rose, lilac, lavender, violet and blue; each flower usually representing several shades, while a golden yellow blotch, surrounded by a halo of blue or violet at the base of the petals, intensifies the wealth of coloring. 10c. each. \$1.00 per doz.

Lilies.

Lilies are among the finest of all plants. Few other plants can compare with them in purity and delicacy of coloring and perfume. The bulbs are perfectly hardy and can be planted in any rich garden soil; they increase in quantity and should not be disturbed for years, as established plants bloom more freely than if taken up annually. Plant 5 to 7 inches deep, according to size of bulb, either in the fall or spring. Can be grown in pots in the house if desired.

Japanese Lilies

These are shipped direct to me from the growers in Japan, and as they are only about twenty days in transit, I am able to offer them fresh and sound and at lower prices than Eastern houses. At single or dozen rates they will be sent by mail, postpaid, to any Post Office in Canada or the United States.

LILIUM AURATUM—This superb lily is well known as the Japan Golden Banded Lily, and is the most showy of the genus. Its flower is from 10 to 12 inches in diameter, and is studded with rich chocolate crimson spots on ivory white ground with pale but distinct yellow ray bands. It often produces more than 20 flowers to the bulb, and they have a strong sweet fragrance. 6 to 8 inches in circumference, 10c. each, \$1.00 per doz. 11 to 13 inches, 15c. each.

L. A. PLATYPHYLLUM (L. A. macranthum)—Close ally of the preceding, but larger and finer in all respects. Its flower is from 10 to 12 inches across, with broader petals and especially noted for its lustrous broad leaves, which give double attraction. The flower is generally studded with crimson chocolate spots, like the Auratum lily. 20c. each.

L. A. PICTUM—Similar in form to the Auratum, but is tipped with crimson shade at the ends of the yellow rays. 25c. each.

L. A. RUBRO-VITTATUM—One of the rarest bulbs. Flowers as large as L. Auratum, and studded with purplish crimson spots, with purplish crimson band to the middle of each petal. Very attractive and most showy of all. 40c. each.

L. A. WITTEI (L. Virginale)—Superb variety. Flower white with yellow bands without spots, fragrant, large and well opened. Very attractive and rare kind. 40c. each.

L. A. VIRGINAL ALBUM—Large flower, white, with yellow band in the centre of each petal, and studded with black spots. 10c. each.

L. BATEMANNII—Orange red. Erect. Very fine. 10c. each.

L. CONCOLOR—Small erect flowering species, lovely carmine, studded with black spots. 10c. each.

L. CONCOLOR, VAR. OHIME—Close ally of the preceding; larger petals, not so much pointed, deeper color. 10c. each.

- L. **CORIDION**—Small erect flowering species, lovely yellow flower with brown spots. 10c. each.
- L. **ELEGANS**—Extra red. 15c. each.
- L. **E. ALICE WILSON**—Large flower, canary yellow, erect; very rare. 60c. each.
- L. **E. ORANGE** (Sawa-yuri)—Earliest summer variety, orange color. 10c. each.
- L. **E. ATROSANGUINEUM**—Dark blood red; erect. 15c. each.
- L. **E. SEMI-PLENO**—Small fringed erect petals in centre of flower, giving semi-double appearance, which are tipped with white. 15c. each.
- L. **E. FLORE-PLENO**—Quite double flowering variety. Very rare. 10c. each.
- L. **E. INCOMPARABLE**—Red, extra large flower. 10c. each.
- L. **DAHURICUM**—Superb variety of the Elegans type, orange yellow. 25c. each.
- L. **KRAMERI**—Light pink flower, very fragrant, sometimes pure white. 15c. each.
- L. **BROWNII**—Light cream within, with beautiful purplish color outside, trumpet form, very showy and fragrant. 40c. each.
- L. **LEICHTLINI**—Canary yellow flower with spots, petals much recurved; very showy. 25c. each.
- **Orange Red**—Close ally of the preceding but color orange red. 20c.
- L. **LONGIFLORUM**—Pure white, trumpet shaped flower, very showy and fragrant. 5 to 7 inches in circumference, 10c. 9 to 10 inches, 15c. each.
- **FOLIIS ALBOMARGINATIS**—With white margined leaves. 35c. each.
- L. **SPECIOSUM RUBRUM**—Dark red, heavily spotted with rich crimson. 10c. each.
- **ALBUM**—10c. each.
- **MELPOMENE**—Extra dark rubrum. 10c. each.
- L. **TIGRINUM**—Orange salmon, spotted with black. 10c. each.
- L. **TIGRINUM PLENO**—Double flower of the preceding. 10c. each.

Candidum, or White Garden Lily.

This lily (also known as St. Joseph's Lily) is the emblem of purity. The deep lemon anthers contrast beautifully with the wax-like petals. The fragrance is delicious but never oppressive. Hardy. 10c. each, \$1.00 per doz.

Chinese Sacred Lily

The Oriental Narcissus or Joss Lily. These flowers are of a lovely wax-like white, with yellow centre, and have a most delicious fragrance. They can be grown in pots of garden soil, but the most popular way is to grow them in water, Chinese fashion. To do this, place the bulb in the centre of a glass bowl, with pebbles enough around the base to hold it firmly in place. Fill with water and place in a sunny window until it blooms. Finest and largest bulbs, grown in the Province of Amoy, imported here direct, 10c. each, \$1.00 per doz.

Lily of the Valley

This beautiful plant is a universal favorite. It is extensively grown for forcing in the winter and early spring months, producing tender stems, set with tiny bells of snowy whiteness, diffusing a delicate odor. It may be planted indoors in baskets of moss, boxes and vases. Plant in November and December.

Convallaria Majalis (Lily of the Valley)—Berlin single crown pips, large and strong, finest for forcing. 3 for 10c. 25c. per doz. \$1.50 per 100.

Narcissus.

A beautiful class of early flowering bulbs, equally valuable for garden culture or for growing in pots for cut flowers in winter. The double and single varieties are perfectly hardy, and need not be disturbed oftener than once in three or four years, and not then unless they become too much crowded. Plant in the fall in good garden soil, 3 or 4 inches deep and 3 to 5 inches apart.

DOUBLE VARIETIES.

Alba Plena Adorata—Snow white, exquisitely scented. The double white "Poet's Narcissus." 5c. each. 3 for 10c. 25c. per dozen.

Incomparable ("Butter and Eggs")—Large double flowers, rich yellow, with orange centre. Fine for winter flowers. 5c. each. 3 for 10c. 25c. per doz.

Orange Phoenix—Orange and lemon. 5c. each. 45c. per dozen.

Silver Phoenix—Creamy white and sulphur. 15c. each. \$1.50 per dozen.

Van Sion—The old Double Yellow Daffodil. Rich golden yellow; one of the best forcing sorts. 5c. each. 35c. per dozen. \$2.25 per 100.

Polyanthus Narcissus,

Or Bunch-Flowered Daffodils.

Early Paper White—Large flowering, pure snow white flowers in clusters, and is perhaps more largely forced for cut flowers than any other, tons of them being used for the flower markets of the world. Very fragrant and sure to bloom. 3 for 10c. 35c. per dozen. \$1.75 per 100.

Poeticus—The "Pheasant's Eye," or "Poet's Narcissus." Pure white flowers, with orange cup, edged with crimson; splendid for cut flowers. 15c. per dozen. 90c. per 100.

Scilla Siberica.

Amæna or Præcox—One of our most beautiful hardy spring bulbs, producing profuse masses of exquisitely rich blue flowers almost before the snow has disappeared. If grown in masses, their flowers fairly carpet the ground; and if grown with Snowdrops and Crocus, for contrast, the effect is magnificent. They should be largely planted as undergrowth in Hyacinth beds, etc. Grown in pots they may be had in bloom from Christmas until April. 3 for 10c. 25c. per dozen. \$1.50 per 100.

Snowdrops.

The earliest of spring flowering bulbs, and are universally admired for their elegant snow-white drooping blossoms. They succeed well in any soil, and should be planted where they are to remain, as they bloom best if not disturbed.

SINGLE—3 for 5c. 15c. per dozen. \$1.00 per hundred.

DOUBLE—3 for 10c. 30c. per dozen. \$1.80 per hundred.

Elwe's Giant—One of the finest of the genus, at least three times the size of the ordinary single Snowdrop, flowers slightly marked with green spots; very fine for cutting; slightly sweet scented. Selected bulbs. 2 for 5c. 20c. per dozen. \$1.20 per hundred.

Tulips.

The cultivation of Tulips is one of the largest specialties of our grower in Holland. The leading varieties are grown by them in enormous quantities, and being possessors of the very best grounds for growing this favorite bulb, I can confidently recommend the following to my customers:

Early Flowering Tulips.

Fine for pot culture. 5c. each, 30c. per dozen., by mail. \$1.50 per 100 by express.

Duc Van Thol—Double, scarlet. Double, crimson. Single, red and yellow.

Single Early Tulips.

In planting, if confined to only one class of Tulips, I would unhesitatingly choose the Single Early varieties. Embracing, as they do, an almost endless variety of colors, forms and markings, they certainly have no superior for bedding purposes. A bed of Single Early Tulips, when in bloom, presents a sight not soon to be forgotten. They can always be depended upon for a brilliant and enduring bed.

I can offer the Single Early Tulips, in mixed colors, consisting of a grand mixture of all the best varieties, at 25c. per doz., by mail, postpaid. \$1.25 per 100 by express, not prepaid.

Pattebacker —Pure white.....	10c. each,	40c. per dozen,	\$2.50 per 100
Procefine —Rosy violet.....	10c. “	50c. “	2.50
Rose Gris de Lin —Pink and white.....	10c. “	50c. “	2.50
Snowball —Pure white.....	10c. “	75c. “	2.50
Yellow Prince —Golden Yellow.....	10c. “	75c. “	2.50

Double Early Tulips.

Double Tulips are becoming more popular every year, and the popularity is not undeserving. Some are beautifully formed, with delicate shades and markings; others are as large as Pæonies, while others, equal in size, are beautifully striped and shaded with yellow, rose, crimson, white, etc. The Double Early varieties bloom with the single Early and may be planted together if desired. I offer them in a splendid assortment, consisting of a mixture of only the most desirable varieties.

Splendid mixed varieties, 25 cents per dozen, by mail, postpaid. By express not prepaid, \$2.00 per 100.

Named Varieties.

Gloria Solis—Red bordered with gold, 5c. each, 30c. per dozen; \$1.50 per 100.

La Candeur—Pure white, 5c. each, 30c. per dozen.

Le Blazon—Rose and white, 10c. each, 75c. per dozen.

Murrillo—Superb, rosy blush, 10c. each, 50c. per dozen

Tournesol—Red and yellow, 10c. each, 60c. per dozen.

Double Late Tulips.

These are generally of taller growth and larger flowers than the Double Early varieties, and as they bloom rather later, they are indispensable where a continuation of flowers is desired.

Choice Mixed, 30c. per dozen, postpaid, By express, not prepaid, \$2.00 per 100.

Marriage de la Fille—White, feathered with crimson, fine, 10c. each, 75c. per dozen.

Single Late Tulips.

Macrosphila—Carmine red, black centre, 10c. each, 75c. per dozen.

Parrot Tulips.

This beautiful and unique class of Tulips does not receive the attention it deserves. The large, attractive flowers, very singular forms and the brilliant colors, all tend towards making it one of the most desirable classes of Tulips

grown. Its odd, ragged flowers, in almost endless variety of forms, are its distinctive features. It deserves a place in every garden. No collection should be without this unique variety.

Choice Mixed varieties, 5c. each, 30c. per dozen, \$1.40 per 100.

Mark Grauff—Red and yellow, 10c. each, 50c. per dozen.

Perfecta—Yellow and red, 10c. each, 50c. per dozen.

Violets.

These popular and fragrant plants can be forced in a cool window or cold frame, but must have lots of fresh air. The single varieties flower most abundantly, but the double flowers are much larger and more showy.

The California—The flowers are single, intensely fragrant, and a clear violet purple that does not fade out. 10c. each. \$1.00 per doz.

Marie Louise—Rich dark blue with white eye; very double and fragrant. 10c. each. \$1.00 per dozen.

ROSES, SHRUBS, ETC.

Azaleas.

Of these beautiful hardy flowering shrubs I offer the following in choice named Double varieties, at \$1.00 each :—

ADMIRAL DE RUYTER—Pure red

CARDINAL—Red

AUGUSTA MICHELYNK—Pure white

FRITZ IMHAN—Yellow

SINGLE VARIETIES—\$1.00 to \$1.25 each.

ARETHUSA—Creamy white

BYRON—Pure white.

BYRON DE GENTBRUGGE—Brilliant rose

HORSA—Pink

CROMOTELLA—Pale Yellow

MECENE—White

AIDA—Fine wine red \$1.25 each

MILTON—White and pink

} \$1.25 each

Azalias for Winter Bloom, can be flowered in the conservatory or dwelling rooms. State color desired. Price, not potted, 75c.; potted, \$1.00.

Chrysanthemums.

Leading varieties, potted, ready for bloom and some in bloom, 25c., 50c. and 75c. each, according to size.

Hydrangea Paniculata.

Trained in Standard form, on 3 foot stems, \$1.00 each. Also a fine stock in Shrub form, at 25c., 50c. and 75c. each.

Magnolias.

I import from Germany, annually, a choice selection of these small trees, and can offer them at \$1.50 each, 2 to 3 feet in height.

Rhododendrons.

Of this beautiful flowering shrub I offer fine imported stock, specially selected for bedding, in the following named varieties and colors:—

Price, \$1.50 each; \$15.00 per doz. Extra choice plants, \$2 to \$3 each.

Boule de Neige—White
Caractacus—Purplish red
Cancestum—Bright rose
Frau Rosalie Seidle—White
H. W. Sargent—Rich crimson

John Walterer—Deep glowing crimson
Old Port—Rich plum color
Princess Louise—Pure white
The Warrior—Dark red

Clapp's Favorite	Jargonelle	Pitmarston's Duchess
Duchess d'Angouleme	Keifer's	Winter Bartlet
Early Madaline		Winter Nelis

SEEDS AND SETS.

The demand for Garden Seeds, in connection with my Greenhouse and Nursery business, was so persistent that, last season, I concluded to list a few varieties which, from personal experience, I am quite sure can be successfully cultivated in the climate. (For full list of Vegetable and Garden Seeds, see pp. 66-67 of my General Descriptive Catalogue). The following are for fall planting:

CABBAGE.

Sent by mail, postpaid, at pkt., oz. and $\frac{1}{4}$ -lb. rates. At lb. rates, add 5c. per lb. to prices quoted, if sent by mail.

EARLY JERSEY WAKEFIELD (Selected)—The best early variety for private use or the market garden; very solid, medium size, conical, excellent flavor. Per packet, 5c.; oz. 20c.; 2 oz. 35c.; $\frac{1}{4}$ -lb. 65c.; 1 lb. \$2.00.

EARLY WINNINGSTADT—Pointed head. For winter and summer use. Sure to head on all soils; desirable for private gardens. Per packet, 5c.; oz. 15c.; 2 oz. 25c.; $\frac{1}{4}$ -lb. 40c.; 1 lb. \$1.50.

ONION SETS.

SILVER SKIN and YELLOW DANVERS, and SHALLOTS—For fall planting. 25c. per lb. postpaid. 20c. per lb. by express.

LAWN GRASS SEEDS.

KENTUCKY BLUE GRASS—New crop. 1 lb. 25c.; 25 lbs. \$4.50; 100 lbs. \$15.00.

RED TOP—New crop. 1 lb. 25c.; 25 lbs. \$4.50; 100 lbs. \$13.00.

WHITE CLOVER—1 lb. 30c.; 10 lbs. \$2.50; 100 lbs. \$20.00.

ROOTS.

SEA KALE—This plant is very generally cultivated in Europe and should be better known here. The flavor is somewhat like Asparagus, but thought to be better. The part eaten is the young shoots that appear in the spring, and they are not good until blanched. Plant out like Cabbage. During the summer the plant will make a slender growth. The plant being perennial, young shoots appear the second spring, and these are covered with earth or a flower pot to blanch. If it is desired to force them, cover the pot and earth around with fresh manure. Roots, for winter forcing, \$1.50 per doz.

HORSE RADISH—For fall planting, 50c. per dozen.

RHUBARB, or Pie-Plant—The earliest material in spring for fine pies and palatable sauce. Roots, for fall planting, 10c., 15c. and 25c. each, according to size.

Strawberry Plants.

These plants, for fall planting, are well rooted layers from the open ground, not the refuse from old bearing beds. (For full description see General Catalogue). Price \$1.50 per 100; \$10.00 per 1,000.

British Queen.	Clark's Seedling.	Manchester.	Magoon.	Sharpless.
Haviland.	Wilson's Albany.	Marshall.	Wolverton.	Wm. Belt.

Australian Crimson—\$1.00 per dozen, \$3.50 per 100.

HENRY—This berry is extra large; dark crimson; rich dark red, flesh firm; stands the wet weather without rotting. The best of any variety on my grounds. \$1.00 per dozen; \$3.50 per hundred.

Fertilizers,

FOR FALL APPLICATION TO FRUIT TREES.

BONE MEAL	per cwt. \$2.50	Per ton, \$40.00
MURIATE OF POTASH	" 4.50	" 80.00
